

CUSTOMER USAGE TRACKER - RIDER C

**I. Definitions**

“Customer Usage Deferred Account” shall mean a deferred account established under this Rider C subject to the Customer Usage Deferred Account Adjustment for such account.

“Customer Usage Deferred Account Adjustment” shall mean a monthly adjustment to the applicable Customer Usage Deferred Account as calculated under this Rider C.

“Customer Usage Adjustment” shall mean a per-Therm amount calculated under this Rider C, as a decrement or increment, to refund or recover the balance in the applicable Customer Usage Deferred Account.

“Relevant Rate Order” shall mean the final Order of the Commission in PSNC’s most recent rate case fixing PSNC’s rates or the most recent final order of the Commission specifically prescribing the factors and procedures to be used in the application of this Rider C.

**II. Applicable Rate Schedules**

The base rates for Service under PSNC’s Rate Schedule Nos. 101, 102,125, and 127 shall be subject to a Customer Usage Adjustment in accordance with this Rider C.

**III. Computation of Customer Usage Deferred Account Adjustment**

The Customer Usage Deferred Account Adjustment for each of the applicable rate classes shall be computed monthly to the nearest dollar using the following formulas:

$$\text{Base Load Therms}_i = \text{Actual Customers}_i \times \text{Base Load}_i$$

$$\text{Heat Sensitive Therms}_i = \text{Actual Customers}_i \times \text{Heat Sensitivity Factor}_i \times \text{Normal Degree Days}$$

$$\text{Normalized Therms}_i = \text{Base Load Therms}_i + \text{Heat Sensitive Therms}_i$$

$$\text{Normalized Margin}_i = \text{Normalized Therms}_i \times \text{R Factor}_i$$

$$\text{Actual Margin}_i = \text{Actual Therms}_i \times \text{R Factor}_i$$

$$\text{Customer Usage Deferred Account Adjustment}_i = \text{Normalized Margin}_i - \text{Actual Margin}_i$$

Where:

$i$  = any particular rate class

$\text{Actual Customers}_i$  = actual customers billed for the billing cycle month for the  $i^{\text{th}}$  rate class

$\text{Actual Therms}_i$  = actual Therms used for the billing cycle month for the  $i^{\text{th}}$  rate class

$\text{R Factor}_i$  = base rate (approved rate less fixed and commodity cost of Gas) for the  $i^{\text{th}}$  rate class used by the Commission in the Relevant Rate Order for the purpose of determining normalized test year revenues

$\text{Heat Sensitivity Factor}_i$  = heat sensitivity factor for the  $i^{\text{th}}$  rate class used by the Commission in the Relevant Rate Order for the purpose of determining normalized test year revenues

$\text{Normal Degree Days}$  = average normal heating degree days used by the Commission in the Relevant Rate Order for the purpose of determining normalized test year revenues

$\text{Base Load}_i$  = base load sales for the  $i^{\text{th}}$  rate class used by the Commission in the Relevant Rate Order for the purpose of determining normalized test year revenues

**IV. Monthly Reports**

PSNC will file with the Commission monthly reports that include: (a) computation of each Customer Usage Deferred Account Adjustment; (b) a schedule showing the effective date of each Customer Usage Deferred Account Adjustment; and (c) a schedule showing the factors of values derived from the Relevant Rate Order used in calculating each Customer Usage Deferred Account Adjustment. Such reports will be filed within 45 dates after the end of the applicable month.

**V. Computation of Customer Usage Adjustment**

Effective for the first day of the April billing cycle month and the first day of the October billing cycle month, the Customer Usage Adjustment for each of the applicable Rate Schedules shall be calculated to the nearest one-thousandth of a cent per Therm using the following formula:

$$\text{Customer Usage Adjustment}_i = \text{Customer Usage Deferred Account Balance}_i / \text{Annual Therms}_i$$

Where:

$i =$  any particular rate class

Customer Usage Deferred Account Balance<sub>i</sub> = balance of Customer Usage Deferred Account as of the end of January or July, as applicable

Annual Therms<sub>i</sub> = normalized volumes assigned by the Commission in the Relevant Order

**VI. Interest**

Interest will be applied to the Customer Usage Deferred Account at PSNC's overall rate of return authorized by the Commission in the Relevant Rate Order.

**VII. Filing with Commission**

PSNC will file a revision to its Tariff for Commission approval upon 14 days notice to implement a decrement or increment each April and October. The filing will include the computation of each Customer Usage Adjustment.
